Mobile POS Solution

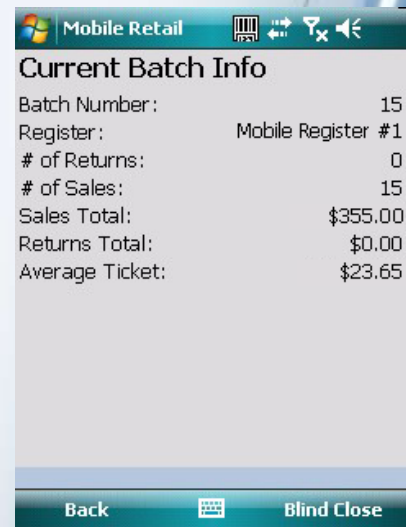

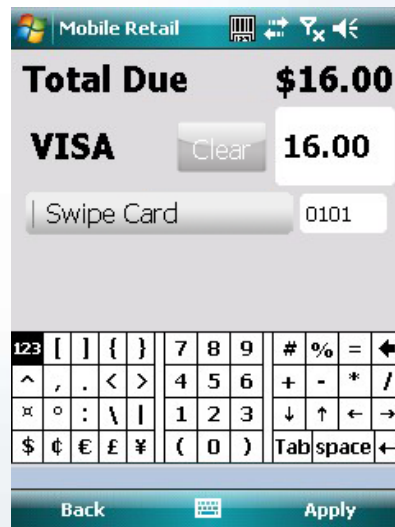

MXP delivers the convenience and flexibility of mobile freedom to your retail operations. Mobile retailers can now process sales and inventory transactions on the go from virtually anywhere

MXP provides retailers with the tools to meet the growing demand for prompt and personal service. MXP's ability to perform line bursting, real time payment processing and inventory management provides growing retailers a competitive edge in today's dynamic retail marketplace.

Use our Mobile X POS solution for:

- Real time payment processing
- Improving POS transaction speed
- Better inventory control
- Line busting during peak periods
- Secure store & forward transactions processing
