

Complete RMS Mobile Management

Mobile Suite Pro combines all of the New West Technologies' mobile modules into one powerful mobile management tool. Whether you use Mobile Cashier for line busting during busy times or Mobile Manager for fast inventory counts, purchase order creation and product labeling, the full Mobile Suite will add all of the mobile modules to your retail management tool box.

Mobile Cashier

Included with the Mobile Suite or sold separately, you can ring up customer purchases, tender transactions, authorize credit card payments, capture signatures and print receipts, all while syncing sales data to your RMS store database. Mobile Cashier allows for seamless transactions and reporting, as well as increased customer satisfaction during busy seasons. Perfect for event merchandising and tent sales, Mobile Cashier is an excellent tool for use anywhere retail sales happen.

Mobile Manager

Included with the Mobile Suite, or sold separately, Mobile Manager will add a wealth of options for mobile tasks to be completed seamlessly and easily within your RMS system. Whether performing inventory counts, creating purchase orders and work orders, receiving product shipments, managing transfers, printing labels or updating item details like pricing, the Mobile Manager software can take your item management and tracking to the next level.

MOBILE SUITE PRO v5.5

Mobile Functionality for RMS

Integrated into your RMS system, Mobile Suite Pro gives you the power and functionality of a traditional POS system on a hand held device. This provides you and your staff the freedom and versatility of mobility while maintaining the robust nature of your Microsoft RMS software system. Available modules include:

- ◆ Mobile Cashier
- ◆ Inventory Count
- ◆ Purchase Order
- ◆ Work Order / Quotes
- ◆ Transfer
- ◆ Label Printing
- ◆ Item Manager

Mobile Manager Modules

Lookup Code	Description	Qty
11212	R/C Train	10

Mobile Inventory Count

Perform inventory counts in real-time or batch mode and gain complete inventory control.

Mobile Purchase Order

Create, edit and receive purchase orders.

Mobile Work Order

Manage quotes, layaways, gift registries and work orders.

Mobile Transfer

Create and receive transfer orders between stores, edit existing orders and recall and redirect transfers.

Mobile Label Printing

Print item barcode labels using a wireless Bluetooth printer.

Mobile Item Manager (not sold separately)

Scan new items into inventory and easily add to the database, create aliases, view and make corrections on existing inventory items and set sale dates for individual items.
